MR. BURKE'S WORKS.

I.

ANECDOTES OF THE ARISTOCRACY; And Episodes in Ancestral Story.

BY J. B. BURKE, ESQ.,

AUTHOR OF "THE PEERAGE," "THE LANDED GENTRY," ETC.

2 vols. post octavo.

"These stories, with all the reality of established fact, read with as much spirit as the tales of Boccacio, and are as full of strange matter for reflection and amazement. Mr. Burke has here given us the most curious incidents, the most stirring tales, and the most remarkable circumstances connected with the histories, public and private, of our noble houses and aristocratic families, and has put them into a shape which will preserve them in the library, and render them the favourite study of those who are interested in the romance of real life."—*Britannia*.

"Hitherto the talents of the author of the volumes before us have been directed towards elucidating the hidden treasures of genealogical history. In the present instance he has abandoned, as it were, the rugged highways of antiquity for more flowery paths abounding in legend and romance. The result has been the production of two of the most interesting volumes ever issued from the press—volumes which show that there are more marvels in real life than in the pages of fiction. The anecdotes, the author assures us, however strange and startling, are invariably the stories, not of fable, but of truth. There are no less than one hundred and twenty-three of the most stirring and captivating family episodes we ever remember to have perused. The 'Anecdotes of the Aristocracy' will be read from the palace to the hamlet, and no one can rise from these volumes, without deriving a useful knowledge of some chapter of family history connected with one or other of the great houses of the kingdom."—*British Army Despatch*.

II.

BURKE'S PEERAGE AND BARONETAGE.

NEW AND REVISED EDITION.

Corrected throughout from the personal communications of the Nobility, &c., and containing all the New Creations. In 1 vol. (comprising as much matter as twenty ordinary volumes), with upwards of 1500 Engravings of Arms, &c., 38s. bound.

"Mr. Burke's 'Peerage and Baronetage' is the most complete, the most convenient, and the cheapest work of the kind ever offered to the public."—*Sun*.

"Mr. Burke's 'Peerage and Baronetage' is certainly the most perfect and comprehensive encyclopædia of personal and national history ever given to the public; combining surprising accuracy and important information with the greatest brevity and clearness, and exhibiting, in a condensed and lucid form, the lives and achievements of the many eminent men who have shed lustre on the rolls of our nobility, from the steel-clad barons of Cressy and Agincourt, to the heroes of Blenheim and Waterloo."—*Globe*.

III.

BURKE'S DICTIONARY

OF THE

EXTINCT, DORMANT, AND ABEYANT PEERAGES

OF

England, Scotland, and Ireland;

A COMPANION TO ALL OTHER PEERAGES.

Cheaper Edition, beautifully printed, in one volume, 8vo, containing 800 double-column pages, 21s. bound.

It should be particularly noticed, that this work appertains nearly as much to extant as to extinct persons of distinction; for though dignities pass away, it rarely occurs that whole families do.

HENRY COLBURN, PUBLISHER, GREAT MARLBOROUGH STREET.
